

members consider these key principles when trying to make their interiors more environmentally friendly:

Caoscreo, Appendiabiti Roger Giallo, in metal – an example of how designers are now creating using totally recyclable materials.

## ***Waste Reduction***

Using sustainable materials within a design. These can be wide and varied and include reclaimed wood, bamboo, recycled metal, cork and jute fibres

× **Get** time but a few. Take a look back at our blog on what we saw at the **Quick** ce Design Show for more ideas on this.
